INTRODUCTION

What is the Purpose of the Directory?

The Directory is designed to connect people to services, to be a Quick Reference for service providers and local agencies. The connecting of people facing life challenges to their community service and support providers is vital. Focus on community assets and strengths--emphasizing what each county has to meet people's needs; which improves community life. This effort is intended to identify and describe these services and distribute this information to as broad an audience as possible.

An additional purpose is for those who are looking to make material or monetary donations; please contact the agency on how you can do that. Donations are very much appreciated.

Directory Limitation

The agencies listed in this directory may not be the only resources available. We have tried to include all appropriate agencies and organizations; however, some information may prove to be missing.

It is our intent to expand this list as more information is made available. To do this, we rely on the community of providers and users to assist us in maintaining accurate and relevant information. If you recognize inaccuracies about a service or agency in this directory, or if you know of or are part of an agency you think should be included, please notify the editors. Update requests can be submitted via email to: tammy@aspellrecovery.com

The websites are updated as quickly as possible and includes the most recent information available. The printed version of the Directory is updated annually.

The information on the websites and in the printed version of the Directory for each organization has been provided by the service provider or from the organization's website.
